

ID	Name	Preconditions	Steps	Expected result	Postconditions
1	User registration	The main page should be opened.	Look at the top right corner of the header and find the "My ads" button.	"My ads" button is displayed according to design.	
			Hover the cursor on the "My ads" button.	Pointer cursor.	
			Click the "My ads" button.	Pop-up with registration form is opened	
			Fill in the registration form with valid phone number (the number to which you can receive SMS) and click on the "Continue" button.	A message with a four-digit code is sent to your number.	
			Enter the code from the SMS in the field provided and click on the "Continue" button.	Pop-up with registration confirmation is opened.	
2	Car listing page navigation	The "All used cars" page is opened.	Scroll down to view more car listings.	Car listings are available.	
			At the end of the list, find the pagination buttons (page numbers).	The pagination buttons are available.	
			Click on the pagination buttons (page numbers) to navigate between different pages of car ads.	The page refreshes and displays a new set of car listings accordingly.	
3	Language switcher functionality	The main page should be opened.	Look at the top right corner of the page and find Language switcher.	The language switcher is available with two options (UA/RU). Ukrainian by default.	
			Hover cursor to the Language switcher.	Pointer cursor.	
			Click the RU option.	The page is loaded in Russian.	
			Click the UA option.	The page is loaded in Ukrainian.	
4	Notepad button functionality	The main page should be opened. The user is authorized.	Look at the top right corner of the page and find the Notepad button (in the shape of a heart).	The Notepad button is available.	
			Hover cursor to the Notepad button.	Pointer cursor.	
			Click the Notepad button.	A "Notepad" page is loaded.	
5	Filter functionality	The main page should be opened.	Find the filter block on the left side under the header	A block with filters with the ability to select different filters is available.	
			Select specific filtering criteria (for example, by vehicle type: cars, by brand: Audi) and click on "Search".	The car listing page is updated according to the selected filtering criteria.	
			Scroll through the page and check out the car options.	Only cars that meet the specified filter conditions are displayed.
